

HOW TO FOLD YOUR OWN CUSTOM C6 ENVELOPE

THIS SIZE ENVELOPE WILL HOLD AN A4 PIECE OF PAPER THAT HAS BEEN FOLDED IN HALF LENGTHWISE AND THEN IN HALF WIDTHWISE TO MAKE AN A6 SIZE CARD OR LETTER.

YOU CAN USE ANY A4 SHEET OF PAPER OR LEFTOVER WRAPPING PAPER TO FOLD YOUR OWN ENVELOPE MEASURING 11.5 CM X 15.5 CM.

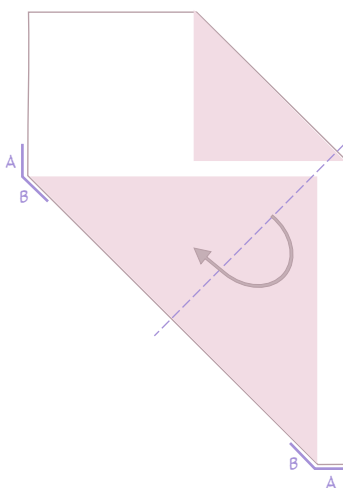

1 DRAW A 2.5 CM VERTICAL PENCIL LINE ON RIGHTHAND LONG EDGE AND 10 CM HORIZONTAL LINE ON TOP SHORT EDGE OF THE PAGE

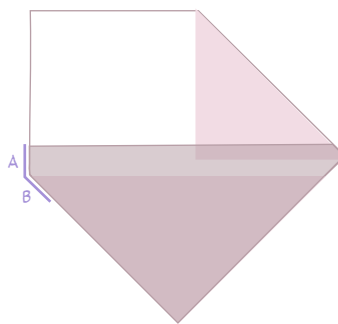

2 FOLD UP BOTTOM LEFT HAND CORNER WITH SHORT EDGE OF PAPER MATCHING YOUR 2.5 CM PENCIL LINE

3 FOLD THE TOP RIGHHAND CORNER DOWN TO MATCH YOUR 10 CM PENCIL LINE, THEN ERASE ALL LINES

4 FOLD ON PURPLE DOTTED LINE, TAKE CARE TO MATCH [A] AND [B] ENSURING YOUR CORNERS DO NOT OVERLAP

5 YOUR ENVELOPE SHOULD HAVE CORNERS MATCH NEATLY AND A SLIGHT OVERLAY ON ALL EDGES AND NO OPEN SEAMS

6 INSERT YOUR A6 CARD OR LETTER, FOLD DOWN FLAP AT 11.5 CM AND SEAL WITH GLUE OR A STICKER.

HOME MADE ENVELOPE GLUE

ONCE YOU'VE MADE A FEW HANDMADE ENVELOPES YOU'LL WANT TO ASSEMBLE YOUR ENVELOPE.

THE BEAUTY WITH THIS TEMPLATE IS THAT YOU DON'T REALLY NEED TO GLUE DOWN THE SIDES BECAUSE THE FOLDS WILL HOLD YOUR LETTER INSIDE. YOU MAY JUST WANT SOME GLUE TO CLOSE THE FLAP TO SECURE FOR POSTING.

INGREDIENTS TO MAKE THIS LICK TO SEAL GLUE RECIPE:

- 3 TBSP WHITE VINEGAR
- 1 ENVELOPE GELATIN *UNFLAVORED*
- 1 TSP VANILLA EXTRACT
- 1 TSP SUGAR

INSTRUCTIONS

1. PUT THE VINEGAR IN A CONTAINER WITH A LID, THE REASON YOU WILL WANT TO DO THIS IS ONCE YOU HAVE CREATED YOUR GLUE, YOU'LL HAVE TO KEEP IT REFRIGERATED BECAUSE WHEN IT BOILS DOWN TO IT, IT'S A FOOD PRODUCT THAT WILL MOLD IF LEFT OUT.
2. MICROWAVE THE VINEGAR UNTIL IT'S HOT, ABOUT 30-45 SECONDS OR BOIL IT ON THE STOVETOP AS PER YOUR PREFERENCE. THE WHOLE POINT IS TO DISSOLVE THE GELATIN.
3. ADD THE GELATIN TO THE VINEGAR AND STIR TO DISSOLVE. ONCE THE GELATIN HAS DISSOLVED, ADD THE SUGAR AND VANILLA EXTRACT. YOU SHOULD END UP WITH A HOT, WATERY MIXTURE THAT HAS THE EXACT COLOR OF HONEY.
4. NOW YOU'VE MADE ENVELOPE GLUE!
5. NEXT, LAY YOUR ENVELOPES ON A SMOOTH SURFACE WITH THE TOP FLAP FLAT AND BRUSH YOUR ENVELOPE GLUE ON THE EDGES OF FLAP,
6. ALLOW THE GLUE TO COMPLETELY DRY [GIVE IT A GOOD FEW HOURS], AND NOW YOU'VE GOT A LICK-TO-SEAL HANDMADE ENVELOPE!
7. AS FOR THE LEFTOVER GLUE, PUT THE LID ON AND REFRIGERATE IT. REMEMBER THAT IT WILL ONLY LAST TWO WEEKS-ISH, SO TRY TO MAKE AS MANY ENVELOPES AS POSSIBLE IN THAT TIMEFRAME TO USE IT UP. EVERY TIME YOU WANT TO RE-USE IT, YOU WILL NEED TO RESTORE ITS LIQUID STATE IN THE MICROWAVE [OTHERWISE, IT JUST LOOKS LIKE SOLID JELLO].
